Arrento Core 600x1200x20

PHYSICAL PROPERTIES

Work Dimensions (mm)	600 x 1200 x 20
Nominal Dimensions (mm)	600 x 1200 x 20
Durability (Freeze-thaw)	Frost resistant - Pass
Slip Resistance (Dry)	82
Slip Resistance (Wet)	72
Transverse/Flexural Split/Breaking	≥ 35 N/mm ²
Water Absorption (%)	≤ 0.5% by mass as a mean

SPECIFICATION

Approx unit weight (kg)	32
Reaction to fire	Class A1 - without testing (see decision 96/603/EC, as amended)
Installation	Available on request Keep all units dry before laying & protect incomplete workings during adverse weather or freezing conditions

Dangerous Substances	Lead NPD, Cadmium NPD
----------------------	-----------------------

Suitability	Domestic use only
-------------	-------------------

SUPPLY

Av. Pack Size m ²	21.6
Units Per Pack	30
Av. pack weight (kg)	960

FURTHER INFORMATION

Cleaning & Maintenance	Available on request
Weathering	Due to the nature of the product scratch marks may appear on the surface during transportation and handling. If such marks appear they will weather away due to the through colour nature of the product. Weathering It should be appreciated that with all products weathering and site conditions can cause shade variation to appear across the surface of individual units. This does not in any way affect the performance of the units and any such variation will diminish over a period of time as the product matures.
Product Evolution	Marshalls reserve the right to amend the technical information as deemed necessary and in accordance with the relevant national and international standards without notice
Contact Us	For technical information on the design, specification and construction when utilising the product, contact Group Technical Services on 0370 411 2234
