pennine paving

manufactured exclusively by Marshalls of Halifax

- EASY TO LAY
- ALL STONES WATERPROOFED
- THE CHARM OF NATURAL STONE

Pennine Paving is supplied in five sizes, each size being available in any of the five colours illustrated enabling an unlimited range of patterns to be created. Selection of colours is naturally a matter for individual choice, but by using a combination of sizes, many pleasing patterns can be achieved, some typical arrangements being shown in this brochure. Pennine Paving is ideal for terraces, paths, surrounds and paved areas in general, greatly enhancing the appearance of any garden.

natural quarried face finish

LAYING PENNINE PAVING

For areas which are subject only to casual pedestrian traffic, the foundation may be granular soil, sand or fine granular compacted material.

If the area is to carry heavy lawn mowers, barrows, etc., it is advisable to lay the paving on a cement mortar bed spread evenly over the full area of the base to approximately 1 in./1½ in. thick.

BRICK RED Ref BR

LIGHT GREEN Ref LG

YORK BROWN Ref YB

SEA BLUE Ref SB

LIGHT BUFF Ref LB

5 COLOURS

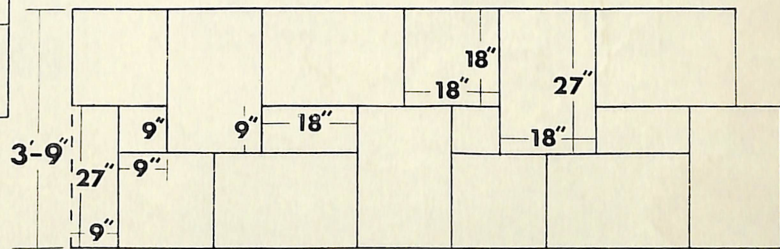

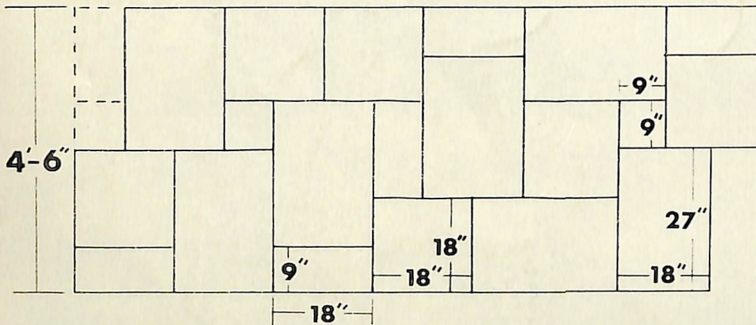

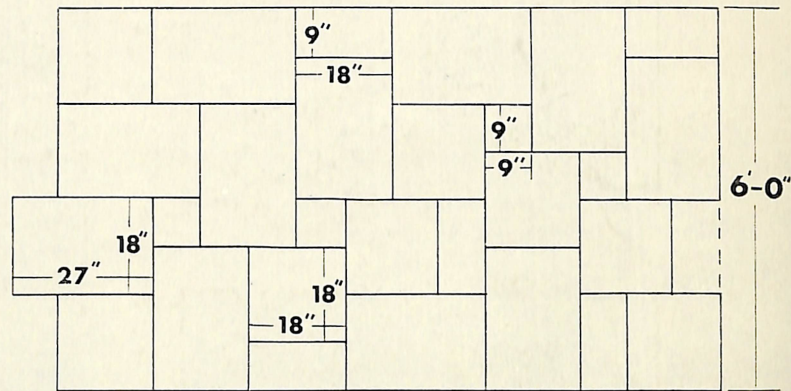

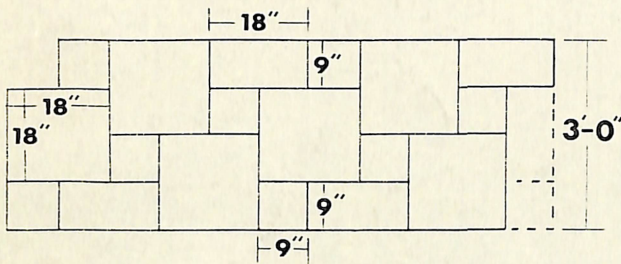

Manufactured in the following sizes, approximately 1½ in. thick.

IMPERIAL	mm
27" x 18"	685·8 x 457·2
18" x 18"	457·2 x 457·2
18" x 9"	457·2 x 228·6
9" x 9"	228·6 x 228·6
27" x 9"	685·8 x 228·6

Pennine Paving weighs approximately 150 lbs. per square yard or 15 square yards per ton.

The colours shown in the brochure are as exact as colour photography will allow.
