## *Natural quarried face finish*

- ★ easy to lay
- ★ the charm of natural stone

Pennine Paving simulates the appearance of Riven York Stone, providing an attractive alternative at a fraction of the cost.

Pennine Paving is manufactured in five sizes, each size being available in any of the five colours illustrated enabling an unlimited range of patterns to be created. Selection of colours is naturally a matter for individual choice, but by using a combination of sizes and colours many pleasing patterns can be achieved. Suggested lay-outs of various path widths and also large areas are available on request.

### LAYING PENNINE PAVING

For areas which are subject only to casual pedestrian traffic, the foundation may be granular soil, sand or fine compacted material.

If the area is to carry heavy lawn mowers or barrows, it is advisable to lay the paving on a cement mortar bed spread evenly over the full area to approximately 1½" thick. The mortar should be approximately five parts sand to one part cement, not too wet.

A suggested proportion of colours to give a harmonious effect is York Brown 35%, Light Buff 35%, Brick Red 15%, Light Green 10%, Sea Blue 5%.

## *5 colours*

BRICK RED  
LIGHT BUFF  
LIGHT GREEN  
YORK BROWN  
SEA BLUE

### SIZES

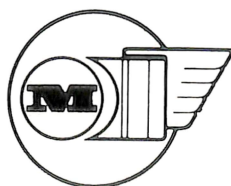

#### APPROX. 1½" THICK

27" x 18"  
18" x 18"  
18" x 9"  
9" x 9"  
27" x 9"

The colours in this leaflet are as exact as colour photography will allow.
