## Modal X Textured 160x160x80

The Modal X range is available in eight colours, two finishes, 15 plan sizes and five depths including three complementary sett sizes featuring a textured riven surface. The Priora permeable options also offer additional choices of depth and plan sizes. Inspired by the most popular Conservation X and Modal paving ranges, which incorporates the La Linia range, Modal X offers a truly premium, contemporary

Modal X gives specifiers higher levels of flexibility when creating landscape designs in mixed-use spaces.

Suitable for both pedestrianised and high-traffic areas, Modal X offers a wide range of warm, neutral, and complementary colours. This includes the captivating new pink granite, along with favourites like silver grey and light granite to provide an extensive breadth of choice for contemporary, beautiful designs for all multi-use areas. With versatility at its core, the range offers a mix of different paving formats from modern linear units for delineating public spaces to smaller elements for finer detailing and edging to give spaces

character and unique design elements. Locally manufactured in Britain using Marshalls concrete technology, providing a low carbon alternative to granite and cost-effective, flexible installation.

DESCRIPTION	
Appearance	Solid Unit with a smooth surface and intergral spacers with Maxi- Mix Technology 4mm Facing layer
Manufacturing Process	Semi dry pressed & vibrated concrete
Base Raw Material	Concrete
Governing Manufacturing Standards	All data where relevant to be established in accordance with BS EN 1338 : 2003
UKCA Marking/DOP	www.marshalls.co.uk/declarations

## Modal X Textured 160x160x80

PHYSICAL PROPERTIES	
Work Dimensions (mm)	159 x 159 x 80
Nominal Dimensions (mm)	160 x 160 x 80
Tolerances on Work Dimensions (mm)	Length ±2mm, width ±2mm, thickness ±3mm
Abrasion Resistance (mm)	≤ 23mm (Wide Wheel Abrasion Test)
Durability (Freeze-thaw)	≤ 1.0 kg/m² as a mean with no individual value > 1.5 kg/m²
Slip/Skid Resistance (polished)	Mean polished skid resistance value (PSRV) : > 45
Slip/Skid Resistance (unpolished)	Mean unpolished skid resistance value (USRV) : > 45
Thermal Conductivity (K value)	Design data as defined to BS EN 13369: 2013
Tensile Splitting Strength	Characteristic tensile splitting strength not less than 3.6 MPa. None of the individual results shall be less than 2.9 MPa, nor have a failure load less than 250N/mm of splitting length
SPECIFICATION	
SPECIFICATION Approx unit weight (kg)	5
	5 No content
Approx unit weight (kg)	
Approx unit weight (kg) Emission of Asbestos	No content  Deemed to satisfy when used for
Approx unit weight (kg) Emission of Asbestos External Fire Performance	No content  Deemed to satisfy when used for roofing  Class A, see commission decision
Approx unit weight (kg) Emission of Asbestos External Fire Performance Reaction to fire	No content  Deemed to satisfy when used for roofing  Class A, see commission decision 200/553/ECU  Laid in accordance with BS EN
Approx unit weight (kg) Emission of Asbestos External Fire Performance Reaction to fire Installation	No content  Deemed to satisfy when used for roofing  Class A, see commission decision 200/553/ECU  Laid in accordance with BS EN
Approx unit weight (kg) Emission of Asbestos External Fire Performance Reaction to fire Installation SUSTAINABILITY	No content  Deemed to satisfy when used for roofing  Class A, see commission decision 200/553/ECU  Laid in accordance with BS EN 7533-3:2005+A1:2009  These units can achieve an "A" rated system when used in conjunction with the correct sub-

FURTHER INFORMATION	
Cleaning & Maintenance	Available on request
Efflorescence	Any product containing cement during its early life may exhibit a temporary white discolouration known as efflorescence. This is not a product fault and will gradually disappear with exposure to natural weathering and trafficking
Weathering	It should be appreciated that with all products weathering and site conditions can cause shade variation to appear across the surface of individual units. This does not in any way affect the performance of the units and any such variation will diminish over a period of time as the product matures.
Product Evolution	Marshalls reserve the right to amend the technical information as deemed necessary and in accordance with the relevant national and international standards without notice. The evolution of new product design is continuous and information is subject to change without notice. Customers should check with the supplier to ensure that they have the latest details
Contact Us	For technical information on the design, specification and construction when utilising the product, contact Group Technical Services on 0370 411 2233
