

Stonespar Thornlake

Date Created: 10/05/18

Marshall's Stonespar Thornlake Sandstone boasts impressive durability and strength, making it ideal for commercial and residential projects. The grey Thornlake colour option allows designers to create a uniform aesthetic across any modern urban application.

The plank paving product is ideal for areas with pedestrian traffic thanks to its non-slip sandstone properties. Its durability also means that it can withstand occasional traffic, such as deliveries and emergency vehicles.

Stonespar is also available in a range of pre-blended mixes such as Vasanta, Grishma, Sharad, Hemant, Dava and Nisha.

The product comes supplied with a top surface that has been blasted and brushed for an enhanced finish to create a pleasing aesthetic for any landscape.

PHYSICAL PROPERTIES
