

# Stonespar Brackendale

Date Created: 10/05/18

The Marshalls Stonespar range of plank paving is extremely strong and durable. Brackendale is a sandstone with light pinkish tones, its excellent non-slip properties making it an ideal option for pedestrian areas. It is also capable of carrying emergency vehicle loading and occasional deliveries.

Available as single colours or as a colour blend, Stonespar offers an exciting range of design possibilities, with pre-blended mixes such as Vasanta, Grishma, Sharad Hemant, Dava and Nisha – all inspired by the four seasons. You can also create your own unique blend to complement any commercial setting.

It has a brushed and blasted surface that enhances its non-slip properties and colouring.

DESCRIPTION	
Quarry of Origin	Kota Region, Rajasthan, India
Base Raw Material	Sandstone
CE Marking/DOP	<a href="https://www.marshalls.co.uk/dop/">https://www.marshalls.co.uk/dop/</a>
