Keykerb - Red

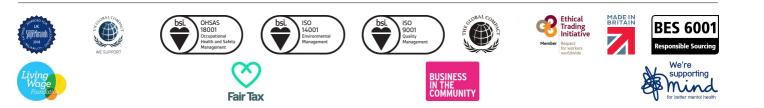

A range of units designed to perfectly complement Keyblok, the UK's most popular concrete block paving, on schemes where sharp detailing cannot be compromised.

As well as providing a perfect colour match, a full range of ancillary shapes is available including radii, droppers and angle stones, to ensure that each landscape is fully functional as well as visually appealing

## DESCRIPTION

| DEJENTITION                          |  |                    |
|--------------------------------------|--|--------------------|
| Manufacturing Process                | Semi dry pressed & vibrated concrete   |                    |
| Base Raw Material                    | Concrete   |                    |
| Governing Manufacturing<br>Standards | All data where relevant to be established in accordance with BS EN 1338 : 2003 |                    |
| CE Marking/DOP                       | https://www.marshalls.co.uk/dop  |                    |
| NBS Specification                    | Q10 10<br>Q10 112<br>Q10 510   | Q10 110<br>Q10 150 |

## Keykerb KL HB or BN

| PHYSICAL PROPERTIES                   |  |
|---------------------------------------|--|
| Tolerances on Work<br>Dimensions (mm) | Length ±2mm, width ±2mm, thickness<br>±3mm                 |
| Abrasion Resistance (mm)              | ≤ 23mm (Wide Wheel Abrasion Test)                          |
| Durability (Freeze-thaw)              | ≤ 1.0 kg/m² as a mean with no individual value > 1.5 kg/m² |
| Material Density                      | 2300 kg/m³ (typically)                                     |
| Slip/Skid Resistance<br>(polished)    | Mean polished skid resistance value<br>(PSRV) : > 45       |
| Slip/Skid Resistance<br>(unpolished)  | Mean unpolished skid resistance value<br>(USRV) : > 45.    |
| Thermal Conductivity (K<br>value)     | Design data as defined to BS EN 13369 :<br>2013            |

| SPECIFICATION             |   |
|---------------------------|---|
| Approx unit weight (kg)   | 5.6   |
| Emission of Asbestos      | No content  |
| External Fire Performance | Deemed to satisfy. See commission decision 2000/553/ECU |
| Reaction to fire          | Class A1, see commisson decision<br>2000/605/EC         |

| FURTHER INFORMATION<br>Cleaning & Maintenance | Information regarding the cleaning &<br>maintenance of this product may be<br>obtained on request  |
|---|--|
| Efflorescence                                 | Any product containing cement during its<br>early life may exhibit a temporary white<br>discoloration known as efflorescence.<br>This is not a product fault and will<br>gradually disappear with exposure to<br>trafficking and weathering Any product<br>containing cement during its early life<br>may exhibit a temporary white<br>discoloration known as efflorescence.<br>This is not a product fault and will<br>gradually disappear with exposure to<br>trafficking and weathering |
| Weathering                                    | it should be appreciated that with all<br>products weathering and site conditions<br>can cause shade variation to appear<br>across the surface of the individual units.<br>This does not in any way affect the<br>performance of the units and any such<br>variation will diminish over a period of<br>time as the product matures.  |
| Product Evolution                             | Marshalls reserve the right to amend the technical information as deemed necessary and in accordance with the relevant national and international standards without notice.  |
| Contact Us                                    | For technical information on the design,<br>specification and construction when<br>utilising the product, contact the<br>Technical Advisory Services Department<br>on 0370 411 2233  |
