Conservation Textured 600 x 300 x 50

Date Created: 07/02/19

First introduced to bring urban developments to life, Conservation paving offers a charming contemporary style known for its unique blend and lavish mix of natural granite aggregates and is further enhanced by a choice of surface finish.

The new enhanced Conservation range is now available in three finishes and three colours.

The new skimmed surface finish gently exposes the aggregates providing an enhanced colour finish on the surface as it draws out the unique blend and lavish mix of aggregates.

The new colour Heather Grey is bursting with colour and complements the existing Silver Grey and Charcoal Grey colour palette, giving clients the ability to mix and match for greater creativity.

DESCRIPTION	
Appearance	Solid unit with textured surface
Manufacturing Process	Hydraulically pressed concrete
Base Raw Material	Pigmented & unpigmented concrete utilising specially selected aggregates
Governing Manufacturing Standards	All data where relevant to be established in accordance with BS EN 1339 : 2003
CE Marking/DOP	https://www.marshalls.co.uk/dop
NBS Specification	Q25 315

Conservation Textured 600 x 300 x 50

PHYSICAL PROPERTIES		
Tolerances	Minimum (mm)	Maximum (mm)
Length	596	600
Width	296	300
Thickness	47	53
Work Dimensions (mm)	598 x 298 x 50	
Nominal Dimensions (mm)	600 x 300 x 50	
Tolerances on Work Dimensions (mm)	Length ±2mm, width ±3mm	±2mm, thickness
Abrasion Resistance (mm)	≤ 23mm (Wide Whe	el Abrasion Test)
Durability (Freeze-thaw)	≤ 1.0 kg/m² as a mea value > 1.5 kg/m²	n with no individual
Material Density	2300 kg/m³ (typically)
Material Density Slip/Skid Resistance (polished)	2300 kg/m³ (typically Mean polished skid (PSRV) : > 45	
Slip/Skid Resistance	Mean polished skid	resistance value

SPECIFICATION	
Approx unit weight (kg)	21
Emission of Asbestos	No content
External Fire Performance	Deemed to satisfy. See commission decision 2000/553/ECU
Reaction to fire	Class A1, see commission decision 2000/605/EC

SUSTAINABILITY	
Breeam	These units can achieve an "A" rated system when used in conjunction with the correct sub-base components
Carbon Footprint	20 kg CO2 m²

· ·	
APPLICATION	
Loading Classification	Category 6 - 10 large goods vehicles per
	week (0.15 msa)

SITE WORKS	
Coverage	5.6 no per m ²
SUPPLY	
Av. pack size (m²)	3.6
Units Per Pack	20
Av. pack weight (kg)	420
Packaging	All packs are suitable for crane off-load Fork lift off-load on request

Packaging	All packs are suitable for crane off-load Fork lift off-load on request
FURTHER INFORMATION	l
Cleaning & Maintenance	Cleaning & maintenance details are available on request
Efflorescence	Any product containing cement during its early life may exhibit a temporary white discolouration known as efflorescence. This is not a product fault and will gradually disappear with exposure to natural weathering and trafficking
Weathering	It should be appreciated that with all products weathering and site conditions can cause shade variation to appear across the surface of individual units. This does not in any way affect the performance of the units and any such variation will diminish over a period of time as the product matures.
Product Evolution	The evolution of new product design is continuous and information is subject to change without notice. Customers should check with the supplier to ensure that they have the latest details. Marshalls reserve the right to amend the technical information as deemed necessary and in accordance with the relevant national and international standards without notice
Contact Us	For technical information on the design, specification and construction when utilising the product, contact the Technical Advisory Services Department on 0370 411 2233
