## Charnwood 450 x 450 x 70

Date Created: 07/02/19

The Charnwood Textured Flag Paving range incorporates both modernity and durability in its design.

The use of larger-size aggregates adds definition to its surface texture finish, allowing for the creation of a unique paving scheme. This manufacturing process delivers a contemporary look to urban environments, without compromising on strength or durability, making it the perfect choice for pedestrian-heavy areas.

A more economical alternative to Conservation paving without sacrificing style or quality, its subtle colour palette of Buff and French Grey allows installations to blend well with a range of modern environments. Charnwood Kerb is also available to enhance final projects by ensuring consistent colourways.

| DESCRIPTION                       |  |
|-----------------------------------|--|
| Appearance                        | Solid unit with textured surface   |
| Manufacturing Process             | Hydraulically pressed concrete   |
| Base Raw Material                 | Concrete   |
| Governing Manufacturing Standards | All data where relevant to be established in accordance with BS EN 1339 : 2003 |
| CE Marking/DOP                    | https://www.marshalls.co.uk/dop  |
| NBS Specification                 | Q25 315  |

| SPECIFICATION             |   |
|---------------------------|---|
| Approx unit weight (kg)   | 35.7  |
| Emission of Asbestos      | No content  |
| External Fire Performance | Deemed to satisfy. See commission decision 2000/553/ECU |
| Reaction to fire          | Class A1, see commission decision 2000/605/EC           |

| SUSTAINABILITY   |   |
|------------------|---|
| Breeam           | These units can achieve an "A" rated system when used in conjunction with the correct sub-base components |
| Carbon Footprint | 20 kg CO2 m²  |

| Carbon Footprint       | 20 kg CO2 m²   |
|------------------------|--|
|                        |  |
| APPLICATION            |  |
| Loading Classification | Category 6 - 10 large goods vehicles per week (0.15 msa) |

| SITE WORKS             |   |
|------------------------|---|
| Coverage               | 4.9 no per m <sup>2</sup>                 |
|                        |   |
| SUPPLY                 |   |
| Av. pack size (m²)     | 5.7                                       |
| Units Per Pack         | 28  |
| Av. pack weight (kg)   | 1000                                      |
| Packaging              | All packs are suitable for crane off-load |
|                        | Fork lift off-load on request             |
|                        |   |
| FURTHER INFORMATION    | N .                                       |

|                        |   |
| FURTHER INFORMATION    | I   |
| Cleaning & Maintenance | Cleaning & maintenance details are available on request   |
| Efflorescence          | Any product containing cement during its early life may exhibit a temporary white discolouration known as efflorescence. This is not a product fault and will gradually disappear with exposure to natural weathering and trafficking   |
| Weathering             | It should be appreciated that with all products weathering and site conditions can cause shade variation to appear across the surface of individual units. This does not in any way affect the performance of the units and any such variation will diminish over a period of time as the product matures.  |
| Product Evolution      | The evolution of new product design is continuous and information is subject to change without notice. Customers should check with the supplier to ensure that they have the latest details. Marshalls reserve the right to amend the technical information as deemed necessary and in accordance with the relevant national and international standards without notice |
