## Modal Textured 600 x 200 x 80

Natural products are manufactured from aggregates sourced locally to the works and contain no pigmentation, therefore colour variation between products from different works is possible.

Our temporarily condensed Modal offer makes room for innovative new product development launching in 2023. Our current available range includes our most popular colours and sizes, for further information please contact your sales representative or enquire now.

The Modal range incorporates the internationally popular La Linia into a truly versatile paving collection. Available in a washed finish, the high quality aggregates in the surface catch the light to lend a contemporary urban look to modern landscapes.

Combining any permutation of the 4 colours and 4 sizes available in the new Modal range allows for truly creative laying options. Modal is ideal for pedestrianised areas, but smaller paving units are also suitable for HGV trafficking. Priora permeable options available in various SKUs.

| DESCRIPTION                          |  |
|--------------------------------------|--|
| Manufacturing Process                | Semi dry pressed & vibrated concrete   |
| Base Raw Material                    | Concrete   |
| Governing Manufacturing<br>Standards | All data where relevant to be established in accordance with BS EN 1338 : 2003 |
| UKCA Marking/DOP                     | www.marshalls.co.uk/declarations   |
| NBS Specification                    | Q24 10,Q24 110,Q24 112,Q24<br>113,Q25 120,Q25 125,Q25<br>220,Q25 315           |

## Modal Textured 600 x 200 x 80

| PHYSICAL PROPERTIES  |  |
|--|--|
| Work Dimensions (mm)   | 599 x 199 x80  |
| Nominal Dimensions (mm)  | 600 x 200 x 80   |
| Tolerances on Work Dimensions (mm)   | Class 2 tolerances to all dimensions as standard,Length ±2mm, width ±2mm, thickness ±3mm   |
| Abrasion Resistance (mm)   | ≤ 23mm (Wide Wheel Abrasion<br>Test)   |
| Durability (Freeze-thaw)   | ≤ 1.0 kg/m² as a mean with no individual value > 1.5 kg/m²   |
| Material Density   | 2300 kg/m³ (typically)   |
| Slip/Skid Resistance (polished)  | Mean polished skid resistance value (PSRV) : > 45  |
| Slip/Skid Resistance (unpolished)  | Mean unpolished skid resistance value (USRV) : > 45  |
| Thermal Conductivity (K value)   | Design data as defined to BS EN 13369  |
| Bending Strength MPa   | Characteristic bending strength of 5.0 MPa with no individual result less than 4.0 MPa   |
| SPECIFICATION  |  |
| Approx unit weight (kg)  | 23   |
| Emission of Asbestos   | and the second s |

| External Fire Performance  Reaction to fire  SUSTAINABILITY  Breeam  Carbon Footprint  APPLICATION  Loading Classification  SITE WORKS  Coverage     | Deemed to satisfy when used for roofing  Class A1 when used for internal flooring  These units can achieve an "A" rated system when used in conjunction with the correct subbase components  32  Category 6 - 10 large goods vehicles per week (0.15 msa)  |
| External Fire Performance  Reaction to fire  SUSTAINABILITY Breeam  Carbon Footprint  APPLICATION Loading Classification  SITE WORKS Coverage SUPPLY | Deemed to satisfy when used for roofing  Class A1 when used for internal flooring  These units can achieve an "A" rated system when used in conjunction with the correct subbase components  32  Category 6 - 10 large goods vehicles per week (0.15 msa)  |

|  | FURTHER<br>INFORMATION    |   |
|--|---------------------------|---|
|  | Cleaning &<br>Maintenance | Available on request  |
|  | Efflorescence             | Any product containing cement during its early life may exhibit a temporary white discolouration known as efflorescence. This is not a product fault and will gradually disappear with exposure to natural weathering and trafficking   |
|  | Weathering                | It should be appreciated that with all products weathering and site conditions can cause shade variation to appear across the surface of individual units. This does not in any way affect the performance of the units and any such variation will diminish over a period of time as the product matures.  |
|  | Product Evolution         | Marshalls reserve the right to amend the technical information as deemed necessary and in accordance with the relevant national and international standards without notice. The evolution of new product design is continuous and information is subject to change without notice. Customers should check with the supplier to ensure that they have the latest details |
|  | Contact Us                | For technical information on the design, specification and construction when utilising the product, contact Group Technical Services on 0370 411 2233   |
