

JOINT FILLING SAND

Suitable for use with all types of block paving

Complete your driveway project using Marshalls Joint Filling Sand; a special kiln dried sand suitable for use with all types of block paving and available in two colours - Red and Golden. Jointing sand should be used before the initial vibration and rubber-faced matting on the vibrating plate should be used.

Tools to aid installation are now available from Marshalls. Call **0345 30 40 707** to discuss in more detail with our sales team.

Joint sand per 25kg bag	Paving thickness	Coverage per bag
Red, Golden	50mm	6-8m ²
	60mm	4.5-6.5m ²
	80mm	3.5-5.5m ²
