DRIVESYS® CLASSIC PAVER

Patented Driveway System

Manor Red (MR)

Abbey Blend (AB)

High strength, high quality authentic style

Drivesys Classic Paver is a replica clay product made in high strength concrete for durability and ease of installation. A variety of realistic face profiles reflect the character of original kiln fired pavers resulting in truly authentic style. Two traditional colours are designed to be laid individually or as a coordinating blend.

To complete every Drivesys Classic Paver driveway, each pack is supplied with the right amount of ready mixed narrow jointing compound, minimising fuss and number of deliveries.

Drivesys blocks come with a protective transportation seal which will remain slightly slippery underfoot until weathered. Once dissipated blocks may appear lighter in colour.

Marshalls recommends the patented Drivesys Driveway system is installed by Marshalls Register Installers.
