## An elegant and timeless reclaimed stone look

Drivesys Original Cobble creates a realistic antique cobble stone look with all the benefits of an engineered concrete driveway system. Use as single colour finish or blend a variety of colours to enhance the charm of any home. Coordinating Roundtop edges are available.

To complete every Drivesys driveway, each pack is supplied with the right amount of ready mixed jointing compound, minimising fuss and number of deliveries.

Drivesys blocks come with a protective transportation seal which will remain slightly slippery underfoot until weathered. Once dissipated blocks may appear lighter in colour.
