

Aggregates & Sand

More choice, better quality

Speak to our team about aggregates and sands for your project. You can choose from an extensive range at our quarries across the north of England.

All products are available for collection or direct to site delivery within a 50 mile radius of each quarry.

Introducing our sand & aggregates business

Closer to you

At Marshalls, we pay close attention to what you need. It's how we've served our customers since Solomon Marshall opened our first quarry in the 1890s. Today, we combine over a century of experience with new technology and state of the art production capabilities, to be the UK's leading supplier of sustainable concrete and natural stone for the built environment.

You get flexible service from a specialist team who are always exploring new possibilities. You'll receive support to bring your designs to life, with a mix of top quality building and hardscaping products, plus innovative planning and design solutions. Your dedicated account manager will work with you to help deliver your projects on time and to budget.

Dust production at Stainton Quarry

10-20 mm stone

SM Scout Moor Quarry
Postcode: BL0 ORQ

Scout Moor is home to our flagship Yorkstone product range, used to produce Marshalls' iconic paving as well as quality bulk aggregates for delivery or collection.

Situated just north of Manchester, our quarried stone is perfect for projects across Lancashire and Greater Manchester.
