Saxon $600 \times 450 \times 63$

Marshalls' well-established Saxon textured paving is designed to provide a durable surface finish through its blend of a hard Yorkstone aggregate. The manufacture of the stones, in which Saxon paving is given its finish, means that it delivers both durability and outstanding non-slip properties.

With an extensive range of thicknesses and sizes available, Marshalls' Saxon textured paving is suitable for any landscape application, in particular ideal for the residential sector. Trafica formats mean that Saxon paving can be deployed in areas of mixed-use space.
