# Marshalls

Mortars & Screeds

# BE BOLD.

# BE CREATIVE.

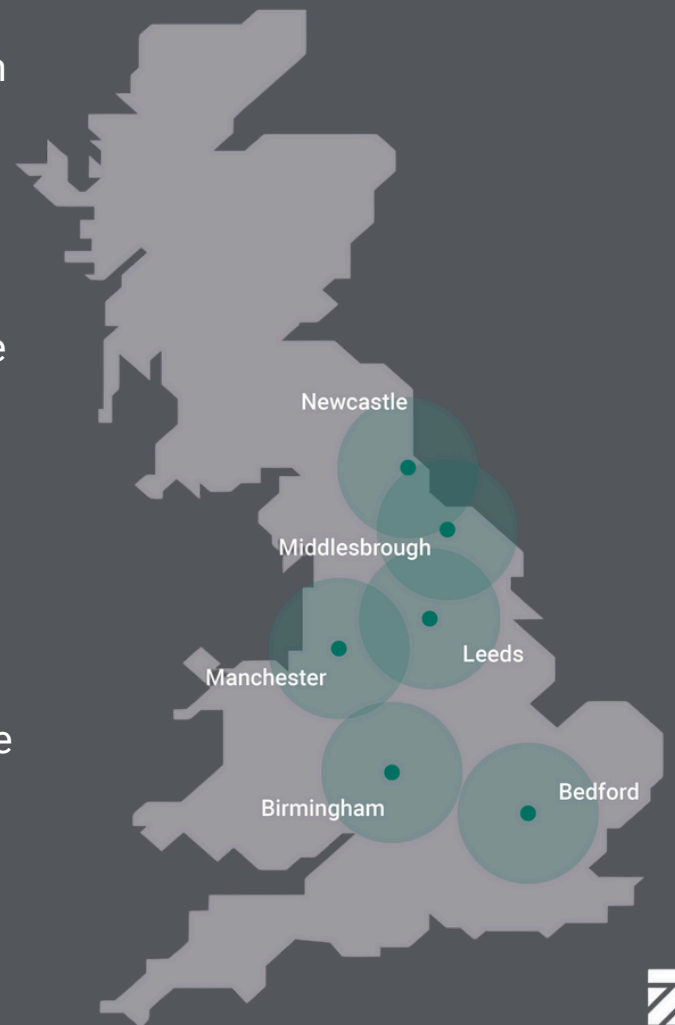

# HAVE CHOICES.

At Marshalls Mortars & Screeds we are passionate about providing the finest quality mortars and screeds, coupled with the highest possible levels of customer satisfaction.

We aim to do this with the help of our team of experienced specialists, available to advise on product information, prices and availability as well as our fleet of vehicles, driven by our dedicated drivers.

But not only that, we want to encourage you to be bold. Be creative. With over 30 colours, you're given a choice. Colours are available in our Mason Mix and Ready-to-use Mortar.

The colours shown in this book are as exact as photographic and printing processes will allow. While they are an excellent guide, we recommend that an actual mortar sample is seen, especially if large quantities are being ordered.

Coloured mortars can help to achieve significant aesthetic improvements to your project. By selecting a coloured mortar you can choose to match or contrast with your chosen brick to create elegant effects.

Our mortars are available in a wide variety of colours and shades to complement any construction material and we offer a free colour matching service and can supply samples to enable effective on-site approval.

Our ready-to-use coloured mortars are computer batched, pan mixed and quality assured to ensure consistency and performance. They are highly durable and designed to last the life of any structure when applied in accordance with the current codes of practice.
