Date Created: 06/01/25

Urbex Textured 600 x 300 x 50

Urbex paving provides a cost effective utility paving solution that's suitable for commercial pedestrianised areas and housebuilder pathways and patios. Available in three modular plan sizes and a choice of thicknesses, providing a paving solution that's suitable for multiple spaces.

Urbex is now available in two finishes and is a great alternative to Standard Pimple Paving. It's a particularly smart practical choice for residential areas - or for any project where spending is restricted. Available in three colour options, Buff, Natural and Charcoal Marshalls' Urbex Paving means you don't have to compromise on appearance to achieve a great price - and vice versa.

DESCRIPTION	
Appearance	Solid unit with riven profile
Manufacturing Process	Hydraulically pressed concrete
Base Raw Material	Concrete
Governing Manufacturing Standards	All data where relevant to be established in accordance with BS EN 1339 : 2003
UKCA Marking/DOP	www.marshalls.co.uk/declarations
NBS Specification	Q25 315

Landscape House, Premier Way, Lowfields Business Park, Elland, HX5 9HT Tel: 03704 112233

FURTHER INFORMATION	
Cleaning & Maintenance	Available on request
Efflorescence	Any product containing cement during its early life may exhibit a temporary white discolouration known as efflorescence. This is not a product fault and will gradually disappear with exposure to natural weathering and trafficking
Weathering	It should be appreciated that with all products weathering and site conditions can cause shade variation to appear across the surface of individual units. This does not in any way affect the performance of the units and any such variation will diminish over a period of time as the product matures.
Product Evolution	The evolution of new product design is continuous and information is subject to change without notice. Customers should check with the supplier to ensure that they have the latest details. Marshalls reserve the right to amend the technical information as deemed necessary and in accordance with the relevant national and international standards without notice
Contact Us	For technical information on the design, specification and construction when utilising the product, contact Group Technical Services on 0370 411 2233
