EDENKERB® Tall Bullnosed

EDENKERB \otimes is the first complete solution in the UK, for integrating rain garden kerbs seamlessly into outdoor designs.

This innovative Sustainable Drainage System (SuDS) can now be implemented into plans and projects simply and consistently, ensuring effective stormwater management while contributing to increased biodiversity.

The flexibility of EDENKERB® lies in its compatibility with other Marshalls paving and kerb ranges. By combining EDENKERB® with these complementary products, you have the freedom to create a wide variety of configurations tailored to the specific requirements of any project. Coupled with the natural beauty of a biodiverse garden, EDENKERB® contributes to the overall enhancement of the spaces we live in.

| DESCRIPTION | |
|-----------------------------------|--|
| Appearance | Solid unit with pimple surface |
| Manufacturing Process | Wet cast concrete |
| Base Raw Material | Concrete |
| Governing Manufacturing Standards | All data where relevant to be established in accordance with BS EN 1340 : 2003 |
| UKCA Marking/DOP | www.marshalls.co.uk/declarations |

EDENKERB® Tall Bullnosed

| PHYSICAL PROPERTIES | |
|------------------------------------|--|
| Work Dimensions (mm) | 400 x 145 x 305 |
| Tolerances on Work Dimensions (mm) | Length ±3mm, width ±3mm, thickness ±3mm |
| Abrasion Resistance (mm) | ≤ 23mm (Wide Wheel Abrasion Test) |
| Durability (Freeze-thaw) | ≤ 1.0 kg/m² as a mean with no individual value > 1.5 kg/m² |
| Material Density | 2300 kg/m3 (typically) |
| Slip/Skid Resistance (polished) | Mean polished skid resistance value (PSRV) : > 67 |
| Slip/Skid Resistance (unpolished) | Mean unpolished skid resistance value (USRV) : > 58 |
| Bending Strength MPa | Characteristic bending strength of 3.5 MPa with no individual result less than 2.8 MPa |
| SPECIFICATION | |
| Approx unit weight (kg) | 31 |
| Emission of Asbestos | No content |
| External Fire Performance | Deemed to satisfy. See commission decision 2000/553/ ECU |
| Reaction to fire | Class A1, see commission decision 2000/605/EC |
| APPLICATION | |
| Suitability | Laid in accordance with BS 7533- 102:2025 |

| FURTHER INFORMATION | |
|------------------------|---|
| Cleaning & Maintenance | Available on request |
| Efflorescence | Any product containing cement during its early life may exhibit a temporary white discolouration known as efflorescence. This is not a product fault and will gradually disappear with exposure to natural weathering and trafficking |
| Weathering | It should be appreciated that with all products weathering and site conditions can cause shade variation to appear across the surface of individual units. This does not in any way affect the performance of the units and any such variation will diminish over a period of time as the product matures. |
| Product Evolution | The evolution of new product design is continuous and information is subject to change without notice. Customers should check with the supplier to ensure that they have the latest details. Marshalls reserve the right to amend the technical information as deemed necessary and in accordance with the relevant national and international standards without notice |
| Contact Us | For technical information on the design, specification and construction when utilising the product, contact the Technical Advisory Services Department |
