Gully Pot

Marshalls
Civils & Drainage

Marshalls gullies are typically used in highways and parking areas. They are produced monolithically on fully automated machines, providing strong, robust units that need no concrete surround, and are not subject to flotation. Marshalls gully pots are manufactured to BS 5911-6, and are delivered inverted. Precast road gullies can be supplied with adaptors for connection to clay or plastic pipes.

DESCRIPTION	
Manufacturing process	Semi dry pressed and vibrated concrete
Base raw material	Concrete
Governing manufacturing standards	BS 5911:2021 Part 6
CE marking / DOP	https://dop.marshalls.co.uk/dop/

Landscape House, Premier Way,
Lowfields Business Park,
Elland HX5 9HT

Gully Pot

Marshalls
Civils & Drainage

MATERIAL DETAILS	
Water absorption (%)	Not exceeding 6% by mass
Water Tightness	Meets the requirements of the standard
Material density	2300kg/m³ (typically)
Emission of abbestos	No content
Reaction to fire	Class A1 see European Comission Decision 2000/605/EC

SUSTAINABILITY	
Carbon footprint	Available upon request
Design life	Service life of over 120 years

ACCESSORIES	
Gully Riser	Available for each Gully Pot

FURTHER INFORMATION	
Product evolution	Marshalls reserve the right to amend the techical information as deemed necessary and in accordance with the relevant national and international standards without notice. The evolution of new product design is continuous and information is subject to change without notice. Customers should check with the supplier to ensure thatthey have the latest detail.
Contact us	For technical information on the design, specification and construction when utilising the product, contact Group Technical Servcies on 0370 411 2233
